Z A C H T H O R P E

'Incense' is the debut single from 21 year old Zach Thorpe. A Michigan born, LA based singer, composer, woodwind player and electronic producer and recent graduate of the prestigious Berklee College of Music in Boston.

His pieces are produced through a method that is mainly experimental, combining this structured sensibility with the aesthetics of electroacoustic composition and found sound.

'Incense' is a rich tapestry of delicate flutes, dream-like melodies, clever use of found-sounds & field recordings, rich, cutting edge electronic production and bass work. In Zach's own words...

"Incense is a song about dreams colliding with reality. It is about those moments of emotional clarity, of a path suddenly lit into the future, headstrong. It is about those moments where those times disappear and reality begins to cloud the idyllic vision of dreams. It is about those moments where everything, every sound in your room becomes alive, works in sync with yourself. And it is about those moments where those sounds and objects cease to exist, a stillness that reminds that dreams can be created and birthed into reality."

Released through London-based label, Bit-Phalanx Music, 'Incense' will be available as a free 8-track download with an eclectic set of exclusive remixes by the likes of ARP DB, Ivan Cheng and Bit-Phalanx veterans Derek Piotr, Earth Is Flat, Same Actor, Niggle and Alexander Dai (of the band, Sayaconcept).

'Incense' is taken from the forthcoming full EP, 'Compass' out winter 2015. Full debut album to follow in 2016.
