PRAQ! (finally a band which sounds like its name)
Challenging the aesthetics of Punk, Jazz and Breakbeat-Electro!

A pan-European three-piece consisting of Saxophone, bass, drums and electronics, PRAQ! are the first band to ever record in a nuclear power plant, under a 20m high highway bridge, in a shipping container or on a frozen lake.

Whaling horns, throbbing bass-lines, stomping beats with echoes of **Battles**, !!! (chk chk chk) and **Lucky Chops**, but with a sound all of their own that defies the very genres they tip-toe.

PRAQ!'s debut single 'Mystification' eases you in to their world of organised chaos with a steadily paced stomp, complete with a dizzying, abstract video by notable photographer & film maker, **Lisa Truttman**.

The single also features a darker dub assault remix courtesy of Polish world-dub duo **Earth Is Flat**, and the exclusive B-side 'Run Away', featuring the vocals of **Gianna Charles**.

'Mystification' is released digitally on Friday 31st March 2017.
Debut album 'STROM' will follow in May on **Bit-Phalanx Music**.
